

Cabinet Order on Export Trade Control

(Cabinet Order No. 378 of December 1, 1949)

The Cabinet hereby enacts this Cabinet Order based on the provisions of Articles 26, 48, 49, 67, and 69 of the Foreign Exchange and Foreign Trade Control Act (Act No. 228 of 1949) and the provisions of paragraph (4) of the Supplementary Provisions, and for the purpose of implementing that Act.

(Permission to Export)

- Article 1 (1) Exporting certain kinds of goods to certain regions specified by Cabinet Order, as provided for in Article 48, paragraph (1) of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949; referred to as "the Act" below), means the export of the goods listed in the middle column of Appended Table 1 to the regions listed in the right-hand column of that table.
- (2) A person seeking permission under Article 48, paragraph (1) of the Act must file an application for permission in accordance with the procedure specified by Order of the Ministry of Economy, Trade and Industry.

(Approval of Exports)

- Article 2 (1) A person seeking to export goods in a way that falls under any of the following items must obtain the approval of the Minister of Economy, Trade and Industry in accordance with the procedures specified by Order of the Ministry of Economy, Trade and Industry:
- (i) exporting goods listed in the middle column of Appended Table 2 to the regions listed in the right-hand column of that table;
 - (i)-2 exporting goods listed in Appended Table 2-2 (excluding goods listed in the middle column of rows 1, 36, 39 through 41, and 43 through 45 of Appended Table 2) to North Korea;
 - (i)-3 exporting goods listed in Appended Table 2-3 (excluding item (i)-2, item (ii), 32. through 85., item (ii)-2, and item (iii)) (excluding goods listed in the middle column of rows 20 through 21-3, 25, 35 through 35-4, 44, and 45 of Appended Table 2) to Belarus;
 - (i)-4 exporting goods listed in Appended Table 2-3 (excluding goods listed in the middle column of rows 1, 20 through 21-3, 25, 35 through 37, 40, 41, and 43 through 45 of Appended Table 2) to Russia;
 - (i)-5 exporting goods (excluding goods listed in the middle column of Appended Table 2 (excluding row 34)) to Ukraine (limited to the areas of Donetsk Oblast and Luhansk Oblast specified by public notice from the Minister of Economy, Trade and Industry; the same applies in Article 4, paragraph (2),

- item (ii), (f));
- (i)-6 exporting goods (excluding goods listed in the middle column of Appended Table 2 (excluding row 34) and Appended Table 2-3 (excluding item (i)-2, item (ii), 32. through 85., item (ii)-2, and item (iii))) to Belarus (limited to exporting through direct or indirect transactions with a person specified by public notice from the Minister of Economy, Trade and Industry);
 - (i)-7 exporting goods (excluding goods listed in the middle column of Appended Table 2 (excluding row 34) and Appended Table 2-3) to Russia (limited to exporting through direct or indirect transactions with a person specified by public notice from the Minister of Economy, Trade and Industry);
 - (ii) exporting goods under a contract for trade under a processing deal through which the relevant person entrusts a contractor in a foreign country with processing undertaken in that or another foreign country (limited to cases in which all or part of the processing under that contract constitutes the processing specified by the Minister of Economy, Trade and Industry (referred to as "designated processing" below)) (the relevant goods are limited to raw materials that will be used under that contract through a processing deal that constitutes designated processing; that the Minister of Economy, Trade and Industry specifies based on the categories of designated processing; and that are associated with the processing that constitutes the relevant designated processing).
- (2) In order to grant approval under item (i) of the preceding paragraph for the goods listed in the middle column of rows 30 and 33 of Appended Table 2, the Minister of Economy, Trade and Industry must obtain the consent of the Minister of Agriculture, Forestry and Fisheries in advance.
- (3) The Minister of Economy, Trade and Industry is to grant approval under paragraph (1) on the goods listed in the middle column of rows 35-2, (ii) and 43 of Appended Table 2 only if permission or confirmation for their export has been obtained under other laws and regulations.

Article 3 Deleted

(Special Provisions)

- Article 4 (1) The provisions of Article 48, paragraph (1) of the Act do not apply in the following cases; provided, however, that this is not the case for the goods listed in the middle column of row 1 of Appended Table 1:
- (i) if a person seeks to export goods which have landed in Japan temporarily and been forwarded with a bill of lading (including airway bills and other instruments equivalent to bills of lading) to a region outside Japan (referred to as "temporarily landed goods bound for foreign countries" in items (iii) and (iv)) (except for cases falling under any of the following, if the person seeks to

- export goods to a region other than those stated in Appended Table 3):
- (a) if it has been specified by Order of the Ministry of Economy, Trade and Industry as a case in which the goods are likely to be used for the development, manufacture, use, or storage (referred to as "development, etc." in (b) and item (iii)) of a nuclear weapon; of a chemical warfare agent, a biological warfare agent, or a device for spraying one of these agents; or of a rocket or unmanned aerial vehicle capable of transporting one of these, with a range or flight range of 300 km or more (referred to as an "NBC or associated device" in (b), item (iii), and Article 14 below);
 - (b) if the person has been notified by the Minister of Economy, Trade and Industry that an application for permission should be filed because the goods are likely to be used for the development, etc. of an NBC or associated device;
- (ii) if a person seeks to export any of the following goods:
- (a) vessel or aircraft supplies to be used for foreign vessels or aircraft;
 - (b) aircraft components as well as machines and apparatus mounted on aircraft to be used for the safe arrival and departure or navigation of aircraft and components, which need repair and are exported without charge;
 - (c) goods sent by international organizations, which are exempted from export restrictions under a treaty or other international agreement that Japan has signed;
 - (d) goods for public use sent to Japanese embassies, legations, consulates, and other equivalent facilities;
 - (e) goods imported by a person without charge, on the condition that they will also be export without charge, as specified by public notice from the Minister of Economy, Trade and Industry;
 - (f) goods imported by a person without charge, on the condition that they will also be exported without charge, as specified by public notice from the Minister of Economy, Trade and Industry;
- (iii) if a person seeks to export goods listed in row 16 of Appended Table 1 (excluding temporarily landed goods bound for foreign countries) to a region stated in the right-hand column of the same row, and this does not fall under any of the following (and does not fall under any of (a), (b), or (d), if the person seeks to export goods to a region other than those stated in Appended Table 3-2):
- (a) if it has been specified by Order of the Ministry of Economy, Trade and Industry as a case in which the goods are likely to be used for the development, etc. of an NBC or associated device;
 - (b) if the person has been notified by the Minister of Economy, Trade and Industry that an application for permission should be filed because the

- goods are likely to be used for the development, etc. of an NBC or associated device;
- (c) if it has been specified by Order of the Ministry of Economy, Trade and Industry as a case in which the goods are likely to be used for the development, manufacture, or use of the goods listed in the middle column of row 1 of Appended Table 1 (excluding goods falling under the category of an NBC or associated device; the same applies in (d));
- (d) if the person has been notified by the Minister of Economy, Trade and Industry that an application for permission should be filed because the goods are likely to be used for the development, manufacture, or use of the goods listed in the middle column of row 1 of Appended Table 1;
- (iv) if a person seeks to export goods listed in the middle column of rows 5 through 13 or row 15 of Appended Table 1, the total value of which is not more than 1,000,000 yen (or 50,000 yen in the case of goods listed in Appended Table 3-3) (excluding temporarily landed goods bound for foreign countries) to a region other than those listed in Appended Table 4 (this is limited to cases which do not fall under any of (a), (b), or (d) of the preceding item (iii), if that person seeks to export goods to a region other than those listed in Appended Table 3 (and also cases that do not fall under any of (a) through (d) of that item, if that person seeks to export goods to the regions listed in Appended Table 3-2 (excluding Iraq and North Korea)).
- (2) The provisions of Article 2 do not apply in the following cases; provided, however, that this is not the case for goods listed in the middle column of rows 37 through 41 and rows 43 through 45 of Appended Table 2:
- (i) if a person seeks to export goods which have landed temporarily; provided, however, that this excludes a case in which a person seeks to export goods listed in the middle column of rows 1, 35, and 35-2 of Appended Table 2 (excluding goods listed in the middle column of rows 1 and 35-2, (i) of that table that have been specified by public notice from the Minister of Economy, Trade and Industry);
- (ii) if a person seeks to export goods listed in Appended Table 5; provided, however, that this excludes a case in which a person seeks to export the following goods:
- (a) goods listed in the middle column of row 1, in row 35-3, (i) and (vi), and in the middle column of rows 35-4 and 36 of Appended Table 2 (for the goods listed in row 35-3, (i) and (vi) of that table, this is limited to those specified by public notice from the Minister of Economy, Trade and Industry);
- (b) goods listed in Appended Table 5, item (ii), which are also listed in the middle column of rows 35 and 35-2 of Appended Table 2;
- (c) goods listed in Appended Table 5, items (ii) and (iii), which are also listed in Appended Table 2-2 and would be exported to North Korea;

- (d) goods listed in Appended Table 5, item (ii), which are also listed in Appended Table 2-3 and would be exported to Belarus;
 - (e) goods listed in Appended Table 5, item (ii) and also listed in Appended Table 2-3, and goods listed in Appended Table 5, item (iii) and also listed in Appended Table 2-3, item (iii), which would be exported to Russia;
 - (f) goods listed in Appended Table 5, item (ii), which would be exported to Ukraine;
 - (g) goods listed in Appended Table 5, item (ii), which would be exported to Belarus or Russia (limited to those involved in the export prescribed in Article 2, paragraph (1), item (i)-6 or item (i)-7);
 - (iii) if a person prescribed in Article 10, paragraph (2) of the Act on Waste Management and Public Cleansing (Act No. 137 of 1970) (including as applied *mutatis mutandis* pursuant to Article 15-4-7, paragraph (1) of that Act) seeks to export goods listed in row 35-2, (2) of Appended Table 2; provided, however, that this excludes a case in which a person seeks to export goods listed in row 35-3, (i) and (vi) of Appended Table 2 (limited to those specified by public notice from the Minister of Economy, Trade and Industry); and
 - (iv) if any person stated in the left-hand column of Appended Table 6 seeks to export goods listed in the right-hand column upon departure from Japan by personally carrying the goods or by sending them separately after filing a declaration with Customs; provided, however, that this excludes a case in which a person seeks to export goods listed in the middle column of row 1, in row 35-3, (i) and (vi), and in the middle column of row 35-4 of Appended Table 2 (for goods listed in row 35-3, (i) and (vi) of that table, limited to those specified by public notice from the Minister of Economy, Trade and Industry), a case in which a person departing from Japan after having entered temporarily seeks to export goods listed in row 36 of that table (excluding those specified by public notice from the Minister of Economy, Trade and Industry), and a case in which the crew member of a vessel or aircraft seeks to export goods listed in Appended Table 2-2 to North Korea and export goods listed in Appended Table 2-3, item (iii) to Russia.
- (3) Beyond the cases prescribed in the preceding paragraph, the provisions of Article 2, paragraph (1), item (i) do not apply if a person seeks to export goods with a total value not exceeding the amount stated in the right-hand column of Appended Table 7 for the corresponding categories of goods listed in the middle column of that table.
- (4) Beyond the cases prescribed in paragraph (2), the provisions of Article 2, paragraph (1), item (ii) do not apply if a person seeks to export goods the total value of which is not more than 1,000,000 yen.

(Confirmation by Customs)

- Article 5 (1) As instructed by the Minister of Economy, Trade and Industry, Customs must confirm that a person seeking to export goods has obtained permission under Article 48, paragraph (1) of the Act or approval under Article 2, paragraph (1) or is not required to obtain the relevant permission or approval.
- (2) Having made a confirmation under the preceding paragraph, Customs is to inform the Minister of Economy, Trade and Industry of the results of the confirmation as provided by Order of the Ministry of Economy, Trade and Industry.

Article 6 Deleted

(Review of Exports)

- Article 7 Based on the reports collected under Article 11, the Minister of Economy, Trade and Industry is to examine whether or not the relevant goods are exported in accordance with the provisions of laws and regulations.

(Valid Period of Permission and Approval)

- Article 8 (1) Permission prescribed in Article 48, paragraph (1) of the Act and approval prescribed in Article 2, paragraph (1) is to be valid for six months from the date of permission or approval.
- (2) If it is found to be particularly necessary to do so, the Minister of Economy, Trade and Industry may set a valid period of permission or approval different from the period referred to in the preceding paragraph or extend that period.

(Notification of Sanctions for Violation of Laws and Regulations)

- Article 9 Having made a disposition under Article 53, paragraph (1) or (2) of the Act, the Minister of Economy, Trade and Industry is to notify Customs to that effect without delay.

(Employees)

- Article 10 Employees specified by Cabinet Order, as provided in Article 53, paragraph (4), item (i) of the Act refer to any employee who falls under any of the following:
- (i) a person that manages the operations at a business office or other office or any other equivalent person specified by Order of Ministry of Economy, Trade and Industry; or
 - (ii) a person that manages operations that have been prohibited pursuant to Article 53, paragraph (1) or (2) of the Act or any other person specified by Order of Ministry of Economy, Trade and Industry as being equivalent

(excluding those stated in the preceding item).

(Reports)

Article 11 Within the limits necessary for the enforcement of the Act (limited to Chapter VI and Chapter VI-3) and this Cabinet Order, the Minister of Economy, Trade and Industry may collect the necessary reports from a person seeking to export goods, a person that has exported goods, a person that has produced those goods, or any other person concerned.

(Delegation of Authority)

Article 12 The following authority of the Minister of Economy, Trade and Industry is to be delegated to the Directors-General of Custom-Houses:

- (i) the authority to grant approval under Article 2, paragraph (1) with respect to goods listed in the middle column of rows 39 through 41 and row 43 of Appended Table 2 (excluding goods listed in the middle column of row 43 of that table that have been specified by public notice from the Minister of Economy, Trade and Industry);
- (ii) the following stated authority, within the scope designated by the Minister of Economy, Trade and Industry:
 - (a) the authority for approval under Article 2, paragraph (1) with respect to goods the price of which does not need to be settled in full by a means of payment;
 - (b) the authority for approval under Article 2, paragraph (1) with respect to goods which have been carried to, stored in, or transported to bonded areas and are to be shipped back from the bonded areas;
 - (c) the authority under Article 67, paragraph (1) of the Act to attach conditions to approval referred to in (a) or (b);
 - (d) the authority to extend the valid period of permission under Article 48, paragraph (1) of the Act or approval under Article 2, paragraph (1), pursuant to Article 8, paragraph (2).

(Acts of Government Organs)

Article 13 (1) The provisions of this Cabinet Order do not apply if the Minister of Economy, Trade and Industry exports goods.

(2) The provisions of Article 5 apply mutatis mutandis to the case referred to in the preceding paragraph.

(Goods That Are Especially Likely to Be Used for the Development of an NBA or Associated Device)

Article 14 The goods that are specified by Cabinet Order, as prescribed in Article 69-6, paragraph (2), item (ii) of the Act, means those stated in row 1 (excluding

(v), (vi), and (x) through (xii)) of Appended Table 1 and those stated in the middle column of rows 2 through 4 of that table (excluding an NBC or associated device).

Supplementary Provisions [Extract]

- (1) This Cabinet Order comes into effect on the date of promulgation.
- (2) A person that has obtained permission for export under the provisions of an order based on the Order on Temporary Measures for Trade (Imperial Order No. 328 of 1946) before this Cabinet Order comes into effect is to be deemed to have obtained approval referred to in Article 1, paragraph (1).

- (1) This Cabinet Order comes into effect on the date of promulgation; provided, however, that the provisions amending Appended Table 1, and Appended Table 3-2 come into effect on September 15, 2014.

(Transitional Measures for Penal Provisions)

- (2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect (in the cases of the amended provisions prescribed in the proviso to the preceding paragraph, the relevant amended provisions).

**Supplementary Provisions [Cabinet Order No. 269 of July 30, 2014]
[Extract]**

(Effective Date)

- Article 1 This Cabinet Order comes into effect on the effective date of the amendment Act (November 25, 2014).

Supplementary Provisions [Cabinet Order No. 172 of April 3, 2015]

This Cabinet Order comes into effect on the date of promulgation.

Supplementary Provisions [Cabinet Order No. 284 of July 31, 2015]

(Effective Date)

- (1) This Cabinet Order comes into effect on October 1, 2015; provided, however, that the provisions of Article 2 that amend Article 4, paragraph (2), item (ii), (a) and the proviso to item (iv) of the same paragraph of the Cabinet Order on Export Trade Control and the provisions adding as follows after row 35-3 of Appended Table 2 of the same Order comes into effect on the day on which the Minamata Convention on Mercury comes into effect in Japan.

(Transitional Measures for Penal Provisions)

- (2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect.

Supplementary Provisions [Cabinet Order No. 189 of April 1, 2016]

This Cabinet Order comes into effect on the date of promulgation.

Supplementary Provisions [Cabinet Order No. 266 of July 29, 2016]

(Effective Date)

- (1) This Cabinet Order comes into effect on the date of promulgation.

(Transitional Measures for Penal Provisions)

- (2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect.

Supplementary Provisions [Cabinet Order No. 346 of November 7, 2016]

(Effective Date)

- (1) This Cabinet Order comes into effect on January 7, 2017; provided, however, that the provisions listed as follows comes into effect on the date specified in the corresponding item:
 - (i) the provisions amending Article 2, paragraph (2), the provisions amending paragraph (3) of the Supplementary provisions, the provisions amending Appended Table 2, and the provisions amending Appended Table 7:

December 7, 2016;

(ii) the provisions amending Appended Table 3-2: the date of promulgation.

(Transitional Measures for Penal Provisions)

(2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect (in the cases of the amended provisions prescribed in the proviso to the preceding paragraph, the relevant amended provisions).

Supplementary Provisions [Cabinet Order No. 25 of February 22, 2017]

This Cabinet Order comes into effect on the date of promulgation.

Supplementary Provisions [Cabinet Order No. 137 of April 12, 2017]

This Cabinet Order comes into effect on the date of promulgation.

Supplementary Provisions [Cabinet Order No. 195 of July 14, 2017]

This Cabinet Order comes into effect on the date of enforcement of the Act Partially Amending the Foreign Exchange and Foreign Trade Control Act (October 1, 2017).

Supplementary Provisions [Cabinet Order No. 284 of November 22, 2017]

(Effective Date)

(1) This Cabinet Order comes into effect on the day on which two months have elapsed from the date of promulgation; provided, however, that the provisions amending the proviso to Article 4, paragraph (2), item (i) and the provisions of the following paragraph comes into effect on the date of promulgation.

(Transitional Measures for Penal Provisions)

(2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect (or in cases of the amended provisions prescribed in the proviso to the preceding paragraph, before the relevant amended provisions come into effect).

**Supplementary Provisions [Cabinet Order No. 19 of January 31, 2018]
[Extract]**

(Effective Date)

- (1) This Cabinet Order comes into effect on the date of enforcement of the Act Partially Amending the Act on Conservation of Endangered Species of Wild Fauna and Flora (June 1, 2018).

Supplementary Provisions [Cabinet Order No. 312 of November 9, 2018]

(Effective Date)

- (1) This Cabinet Order comes into effect on the day on which two months have elapsed from the date of promulgation; provided, however, that the provisions of Article 2 that amend Appended Table 2 of the Cabinet Order on Export Trade Control comes into effect on April 1, 2019.

(Transitional Measures for Penal Provisions)

- (2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect (in the cases of the amended provisions prescribed in the proviso to the preceding paragraph, the relevant amended provisions).

**Supplementary Provisions [Cabinet Order No. 319 of November 21, 2018]
[Extract]**

(Effective Date)

- (1) This Cabinet Order comes into effect on the date of enforcement of the provisions of Article 5 of the amendment Act (September 1, 2019).

**Supplementary Provisions [Cabinet Order No. 326 of November 30, 2018]
[Extract]**

(Effective Date)

- (1) This Cabinet Order comes into effect on the date of enforcement of the Act Partially Amending the Agricultural Chemicals Regulation Act (December 1, 2018).

(Transitional Measures for Penal Provisions)

- (2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect.

Supplementary Provisions [Cabinet Order No. 341 of December 19, 2018]

(Effective Date)

- (1) This Cabinet Order comes into effect on the date of promulgation.

(Transitional Measures for Penal Provisions)

- (2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect.

Supplementary Provisions [Cabinet Order No. 151 of April 10, 2019]

This Cabinet Order comes into effect on April 12, 2019.

Supplementary Provisions [Cabinet Order No. 71 of August 7, 2019]

This Cabinet Order comes into effect on the day on which 21 days have elapsed from the date of promulgation.

**Supplementary Provisions [Cabinet Order No. 168 of November 22, 2019]
[Extract]**

(Effective Date)

- (1) This Cabinet Order comes into effect on the day on which two months have elapsed from the date of promulgation; provided, however, that the provisions amending paragraph (3) of the Supplementary Provisions and the provisions of paragraph (3) of the Supplementary Provisions come into effect on the date of promulgation.

(Transitional Measures for Penal Provisions)

- (2) Prior laws continue to govern the application of penal provisions to any acts undertaken before this Cabinet Order comes into effect.

Supplementary Provisions [Cabinet Order No. 338 of November 27, 2020]

(Effective Date)

- (1) This Cabinet Order comes into effect on the day on which two months have elapsed from the date of promulgation.

(Transitional Measures Concerning Penal Provision)

- (2) Prior laws continue to govern the applicability of penal provisions to acts committed prior to the enforcement of this Cabinet Order.

Supplementary Provisions [Cabinet Order No. 140 of April 7, 2021]

This Cabinet Order comes into effect on the date of promulgation.

Supplementary Provisions [Cabinet Order No. 59 of March 11, 2022]

(Effective Date)

- (1) This Cabinet Order comes into effect on March 18, 2022.

(Transitional Measures Concerning Penal Provision)

- (2) Prior laws continue to govern the applicability of penal provisions to acts committed prior to the enforcement of this Cabinet Order.

Supplementary Provisions [Cabinet Order No. 122 of March 29, 2022]

(Effective Date)

- (1) This Cabinet Order comes into effect on April 5, 2022.

(Transitional Measures Concerning Penal Provision)

- (2) Prior laws continue to govern the applicability of penal provisions to acts committed prior to the enforcement of this Cabinet Order.

Supplementary Provisions [Cabinet Order No. 135 of March 31, 2022]

This Cabinet Order comes into effect on April 1, 2022; provided, however, that the provisions of Article 1 (excluding the provisions of Article 1 amending Article 87 of the Order for Enforcement of the Customs Act), the provisions of Article 4, and the provisions of Article 7 (excluding the provisions of Article 7 amending Article 1, paragraph (1) of the Order for Enforcement of the Act on Processing, etc. of Business Related to Import and Export by Means of Electronic Data Processing System, the provisions amending the appended table, item (iv) of the same Order, the provisions amending item (iv)-2 of the same table, the provisions amending item (lxxix)-2 of the same table, and the provisions amending item (lxxxix)-4 of the same table) come into effect on the day on which the provisions stated in Article 1, item (iv) of the Supplementary Provisions of the Act Partially Amending the Patent Act (Act No. 42 of 2021) comes into effect.

Supplementary Provisions [Cabinet Order No. 191 of May 13, 2022]

This Cabinet Order comes into effect on May 20, 2022.

Supplementary Provisions [Cabinet Order No. 213 of June 10, 2022]

(Effective Date)

(1) This Cabinet Order comes into effect on June 17, 2022.

(Transitional Measures Concerning Penal Provision)

(2) Prior laws continue to govern the applicability of penal provisions to acts committed prior to the enforcement of this Cabinet Order.

Supplementary Provisions [Cabinet Order No. 318 of September 30, 2022]

This Cabinet Order comes into effect on October 7, 2022.

Supplementary Provisions [Cabinet Order No. 328 of October 6, 2022]

(Effective Date)

(1) This Cabinet Order comes into effect on the day on which two months have elapsed from the date of promulgation.

(Transitional Measures Concerning Penal Provision)

(2) Prior laws continue to govern the applicability of penal provisions to acts committed prior to the enforcement of this Cabinet Order.

Supplementary Provisions [Cabinet Order No. 17 of January 27, 2023]

This Cabinet Order comes into effect on February 3, 2023.

Appended Table 1 (Re: Articles 1 and 4)

	Goods	Regions
1	(i) Firearms, firearm ammunition (including those used to emit light or smoke), or accessories or their parts (ii) Explosives (excluding ammunition), explosive dispensers or launchers, or accessories or their parts (iii) Propellants (excluding explosives) or military fuels (iv) Stabilizers for propellant powders or other explosives (v) Directed energy weapons or their parts (vi) Kinetic energy weapons (excluding firearms) or projectiles, or their parts (vii) Military vehicles, their accessories, bridges specially designed for military use, or their parts (viii) Military vessels, their hulls or accessories, or their parts (ix) Military aircraft, their accessories, or their parts	All regions

	<p>(x) Antisubmarine nets, anti-torpedo nets, or buoyant electric power cables for magnetic mine sweeping</p> <p>(xi) Armor plates, military helmets, body armors, or their parts</p> <p>(xii) Military searchlights or their control equipment</p> <p>(xiii) Biological warfare agents, chemical warfare (CW) agents, radioactive materials, or equipment or parts for the dissemination, protection, decontamination, detection, or identification or their parts</p> <p>(xiii)-2 Chemical mixtures specially formulated for the decontamination of biological warfare agents, CW agents, or radioactive materials</p> <p>(xiv) Biopolymers for the detection or identification of CW agents, cell cultures used for the production of those biopolymers, biocatalysts for the decontamination or degradation of CW agents, or expression vectors, viruses, or cell cultures that contain genetic codes required for the production</p> <p>(xv) Equipment and devices used in the production or testing of military propellants, or their parts</p> <p>(xvi) Equipment specially designed for the production of weapons, test devices, or parts or their accessories or their parts</p> <p>(xvii) Military satellites, or their parts</p>	
2	<p>Goods stated below whose specifications comply with Order of the Ministry of Economy, Trade and Industry</p> <p>(i) Nuclear fuel materials or nuclear source materials</p> <p>(ii) Nuclear reactors, components, or their auxiliaries, or power-generating or propulsion equipment specially designed for nuclear reactors</p> <p>(iii) Deuterium and deuterium compounds</p> <p>(iv) Artificial graphite (excluding those stated in the middle column of row 4)</p> <p>(v) Equipment specially designed for the separation or reprocessing of irradiated nuclear fuel materials or nuclear source materials, or components or controllers and their parts</p> <p>(vi) Equipment for the separation of lithium isotopes, or equipment for the fabrication of nuclear fuel materials</p> <p>(vii) Equipment for the separation of uranium or plutonium isotopes or their auxiliaries, or their components (excluding those stated in (xxxi) below)</p> <p>(viii) Frequency changers usable for gas centrifuges, or their components</p> <p>(ix) Nickel powders, or porous metals produced from those powders</p>	All regions

(x) Equipment usable for the production of deuterium or deuterium compounds, or components or their auxiliaries

(x)-2 Equipment for the production of uranium trioxide, uranium hexafluoride, uranium dioxide, uranium tetrafluoride, uranium metal, uranium tetrachloride, plutonium dioxide, plutonium oxalate, plutonium peroxide, plutonium trifluoride, plutonium tetrafluoride, or plutonium metal, or their auxiliaries , or components of the equipment and their auxiliaries

(xi) Flow-forming machines for the production of gas centrifuges, or their components (excluding those stated in the middle column of row 4)

(xii) Machine tools or other equipment stated below and used in the development and production of nuclear weapons

(1) Numerically-controlled machine tools

(2) Measuring equipment (including machine tools with a measurement function)

(xiii) Induction furnaces, arc furnaces, plasma melting furnaces, electron-beam melting furnaces, or components or their auxiliaries

(xiv) Isostatic presses, or components or its controllers (excluding those stated in the middle column of row 4)

(xv) Robots set forth below, or components or their controllers

(1) Explosion-proof robots

(2) Radiation-proof robots

(xvi) Vibration test equipment or its components (excluding those stated in the middle column of row 4)

(xvii) Structural materials stated below and usable for gas centrifuge rotors (excluding those stated in the middle column of row 4)

(1) Aluminum alloys

(2) Carbon fibers, aramid fibers, glass fibers, or prepregs made from carbon fibers or glass fibers, or molded products made with carbon fibers or aramid fibers

(3) Maraging steels

(4) Titanium alloys

(xviii) Metals, waste, or scraps of beryllium or beryllium alloys, or beryllium compounds, or primary or semi-finished products of them (excluding primary or semi-finished products of beryllium oxide used in electronics parts)

<p>(xix) Substances used as alpha sources for the detonation of nuclear weapons, or raw materials therefor (excluding those stated in (i) above)</p> <p>(xx) Boron-10</p> <p>(xxi) Substances used as reducing or oxidizing agents for the production of nuclear fuel materials</p> <p>(xxii) Crucibles made with materials which are corrosion-resistant against actinide</p> <p>(xxiii) Metals, waste or scraps of hafnium or hafnium alloys, or hafnium compounds, or primary or semi-finished products of them</p> <p>(xxiv) Metals, waste or scraps of lithium or lithium alloys, lithium compounds or mixtures containing lithium, or primary or semi-finished products of them</p> <p>(xxv) Primary products of tungsten, tungsten carbide or alloys (limited to those that have cylindrical or hemispherical shapes or a combination of both shapes)</p> <p>(xxvi) Metals, waste, or scraps of zirconium or zirconium alloys, or zirconium compounds, or primary or semi-finished products of them</p> <p>(xxvii) Electrolytic cells for fluorine production</p> <p>(xxviii) Equipment for the production or assembly of gas centrifuge rotors, or their components</p> <p>(xxix) Centrifugal balancing machines (excluding single-plane balancing machines)</p> <p>(xxx) Filament winding machines, or their components or controllers</p> <p>(xxxii) Gas laser oscillators, solid-state laser oscillators, or dye laser oscillators usable for the separation of uranium isotopes</p> <p>(xxxiii) Mass spectrometers or ion sources usable for the analysis of nuclear fuel materials</p> <p>(xxxiiii) Pressure gauges or bellows valves using materials which are corrosion-resistant against uranium hexafluoride (excluding those stated in the middle column of row 3)</p> <p>(xxxiv) Superconducting solenoid electromagnets</p> <p>(xxxv) Vacuum pumps used in separators for uranium isotopes (excluding those stated in the middle column of row 3)</p> <p>(xxxv)-2 Scroll-type compressors or vacuum pumps that use bellows seals (excluding those stated in (xxxv) and the middle column of row 3)</p> <p>(xxxvi) Direct current power units with lower fluctuations of voltage and current</p> <p>(xxxvii) Electron accelerators or flash X-ray generators (excluding those stated in the middle column of row 4)</p> <p>(xxxviii) Impact testing machines using projectiles</p>

- palladium, rhodium, and ruthenium; the same applies below) and metals coated with specified metals and their products;
- (xvi) portable digital automatic data processors (limited to those at least consisting of a central processing unit, keyboard, and display);
 - (xvii) microphones and stands for them, loudspeakers, headphones and earphones, combinations of microphones and loudspeakers, audio amplifiers, and electric sound amplifiers;
 - (xviii) sound reproducers, recorders, and equipment for recording or reproducing videos, and their components and accessories;
 - (xix) media for recording sound or their equivalent (excluding those holding photographs or moving pictures but including those holding sound recordings or their equivalent);
 - (xx) video camera recorders and digital cameras;
 - (xxi) radio receivers (including those that can receive cordless telephones or radiotelegraphy);
 - (xxii) television sets (limited to color television sets specified by public notice from the Minister of Economy, Trade and Industry), video monitors (limited to color video monitors), and video projectors;
 - (xxiii) automobiles and vehicles specially designed for driving in snow (in the case of vehicles specially designed for driving in snow, limited to those specified by public notice from the Minister of Economy, Trade and Industry);
 - (xxiv) motorcycles (including mopeds) and motor-assisted bicycles;
 - (xxv) yachts and other ships and canoes for recreational or sporting use;
 - (xxvi) cameras (limited to single-lens reflex cameras);
 - (xxvii) moving picture cameras and projectors;
 - (xxviii) projectors, photographic enlargers, and photographic reducers (excluding those for moving pictures);
 - (xxix) projection screens;
 - (xxx) wristwatches, pocket watches, or other portable watches (including stopwatches);
 - (xxxi) musical instruments and their components and accessories;
 - (xxxi)-2 sports gear, and their components and accessories (limited to those specified by public notice from the Minister of Economy, Trade and Industry);
 - (xxxii) fountain pens;
 - (xxxiii) works of art, collections, and antiques.

Appended Table 2-3 (Re.: Articles 2 and 4)

- (i) goods listed in the middle column of rows 1 through 15 of Appended Table 1;
- (i)-2 goods stated below that have been specified by Order of the Ministry of Economy, Trade and Industry (excluding the goods stated in the preceding item):

- (a) substances used as raw materials of chemical warfare agents and substances having toxic ability equivalent to that of chemical warfare agents and substances used as raw materials thereof;
- (b) goods stated below, which are part of the equipment used for manufacture of chemical warfare agents and their components and accessories;
 - 1. reaction vessels;
 - 2. storage tanks;
 - 3. heat exchangers and condensers;
 - 4. distillation or absorption columns;
 - 5. agitators;
 - 6. valves;
 - 7. pumps and their components;
 - 8. floor-mounted fume hoods;
 - 9. equipment for the analysis or detection of chemical substances, and its components and accessories;
 - 10. electrolytic cells and their components;
 - 11. compressors;
- (c) the goods stated below, which are part of the equipment used for manufacture of chemical warfare agents and their components
 - 1. equipment used for physical containment and their components;
 - 2. fermenters;
 - 3. centrifuges;
 - 4. protective equipment used in physical containment facilities;
 - 5. equipment that is for synthesizing or combining nucleic acids;
- (ii) the goods stated below that have been specified by Order of the Ministry of Economy, Trade and Industry (excluding the goods stated in the preceding two items):
 - 1. integrated circuits, analog-to-digital converters, components of microwave equipment or of millimeter wave equipment, signal processing devices employing elastic waves and their components, primary cells, secondary cells, solar cells, superconductive electromagnets, devices using superconductive materials, and discharge tubes;
 - 2. electronic test equipment, analog or digital recording devices and oscilloscopes and their components;
 - 3. frequency changers, mass spectrometers, flash x-ray machines and their accessories and components, pulse amplifiers, signal generators, equipment for time delay measurement, chromatography and spectrometers;
 - 4. semiconductor devices, integrated circuits and semiconductor materials and equipment for the manufacture of their assemblies, and their components and accessories;
 - 5. semiconductor devices, integrated circuits and semiconductor materials

and equipment for testing or inspecting them, and their components and accessories;

6. resists;

7. computers and their accessories and components ;

8. communication devices and their components and accessories;

9. equipment for testing goods stated in 8;

10. materials used for optical fiber for communication devices;

11. cryptographic equipment and its components;

12. underwater detection equipment employing acoustic waves and equipment for positioning vessels, and their components;

13. optical sensors and their components and equipment using optical sensors;

14. electronic cameras and their components;

15. optical filters, fluoride fiber cables, and their components;

16. laser oscillators;

17. magnetometers and their components;

18. gravity meters;

19. radar systems and their components;

20. signal processing equipment (excluding equipment employing elastic waves);

21. equipment and tools for testing, inspecting, or manufacturing the goods and their components stated in 16 and their components and accessories;

22. optical sensing fibers and materials used for optical sensors;

23. fluoride compounds and optical fiber preforms made from these compounds;

24. inertial navigation equipment, direction finding equipment, and avionic equipment, and their components;

25. equipment for inspecting, testing, or manufacturing navigation or avionic equipment;

26. vessels, underwater vision systems and other equipment for underwater activities, underwater diving equipment, and their components and accessories;

27. diesel engines, tractors, and their components and accessories;

28. aircraft, gas turbine engines, and their components;

29. parachutes (including movable parachutes and paragliders) and their components and accessories;

30. vibration testing equipment and their components;

31. equipment for measuring gas turbine engine components, equipment and tools for manufacturing them, and accessories of these equipment and tools;

32. equipment and catalysts for oil refining;

33. quantum computers and other equipment employing quantum properties

and their accessories and components;

34. electron microscopes, atomic force and other microscopes, and equipment specially designed for use with these microscopes;

35. additive manufacturing equipment and metal powders and metal alloys it uses;

36. equipment for manufacturing organic light emitting diodes, organic field-effect transistors, or organic photovoltaic cells;

37. equipment for producing microelectromechanical systems;

38. equipment for producing fuels from hydrogen (limited to hydrogen produced by using solar power, wind power, or any other renewable energy) and equipment for manufacturing highly efficient solar cells;

39. vacuum pumps and vacuum gauges;

40. cryogenic refrigeration systems, their accessories, and the components of these systems and accessories;

41. equipment for removing a lid and sealing materials from a packaged integrated circuit;

42. high quantum yield photodetectors;

43. machine tools, their components, and equipment for numerically controlling machine tools;

44. materials that can be used to make detection by electromagnetic waves more difficult, alloys composed of nearly equal proportions of multiple elements, and other advanced materials;

45. conductive polymers, semiconductive polymers, and electroluminescent polymers;

46. water cannon systems for riot or disturbance control and their components and accessories;

47. police batons and similar tools and whips;

48. police helmets and shields and their components;

49. handcuffs, strait jackets and other restraint devices, and their components and accessories;

50. fluids, additives, and high-pressure pumps used for drilling to explore oil or combustible natural gas;

51. ring magnets used as equipment;

52. equipment designed to physically confine radioactive material or shield against radiation;

53. tear gas, liquid pepper, charges, grenades and other explosives, and pyrotechnic articles having dual military and commercial use, and their components;

54. fingerprinting powders, dyes, and ink;

55. personal radiation monitoring dosimeters and other equipment to protect against hazards used in mining and other civil industries, and their

components;

56. radiation detection, monitoring, and measurement equipment and radiographic equipment;

57. electrolytic cells, particle accelerators, automatic control systems designed for power industries, Freon and chilled water cooling systems and composite materials, and equipment for producing fibers, prepregs, or preforms;

58. fibers used for composite materials;

59. vaccines, immunotoxins, and medical products containing living organisms, toxins or their subunits or genes used as raw materials of biological warfare agents, and diagnostic and food testing kits;

60. commercially available explosives that contain trimethylenetrinitramine or other energetic materials, detonating fuses, other blasting supplies, and nitrogen trifluoride gas.

61. mixtures that contain substances used as raw materials for chemical warfare agents, substances that are as toxic as chemical warfare agents, or substances used as raw materials for these agents; as well as medical, analytical, diagnostic, and food testing kits that contain substances used as raw materials for chemical warfare agents;

62. polyarylene ether ketones;

63. nickel and copper alloy plates, hardened steel or tungsten carbide precision ball bearings, tributyl phosphate, nitric acid, fluorine, and alpha-emitting radionuclides;

64. explosives or detonator detection equipment and its components;

65. Fluoroscopes and their components;

66. bearings that operate at high speeds, bearings designed to function at high or low temperatures, and magnetic bearings;

67. piping, joints, and valves that are made of stainless steel or other alloys;

68. electromagnetic pumps compatible with molten metals;

69. portable electric generators and their components;

70. bellows sealed valves;

71. machinery for manufacturing or finishing gears;

72. devices for measuring dimensions;

73. robots capable of instantaneously processing information transmitted from sensors and generating or modifying programs or data;

74. assemblies, circuit boards, or inserts designed for use in the goods stated in 43 or in 71 through 73;

75. isostatic presses;

76. equipment for manufacturing bellows;

77. laser welding machines, arc welders, and electron beam welders;

78. nickel and copper alloy equipment;

- 79. large boring machines and large earth-moving machines used in mining;
- 80. equipment for electroplating nickel or aluminum;
- 81. industrial pumps designed to operate in combination with an electric motor;
- 82. piping, joints, valves, gaskets, and other equipment designed for use in a high vacuum;
- 83. spin forming and flow forming machines;
- 84. centrifugal balancing machines;
- 85. austenitic stainless steel plate, valves, piping, and tanks and other containers;

(ii)-2 the goods stated below that have been specified by Order of the Ministry of Economy, Trade and Industry (excluding the goods stated in the preceding three items):

(a) wood and articles of wood, as set forth in the following:

- 1. sheets for veneering, for plywood or for similar laminated wood and other wood, sawn lengthwise, sliced or peeled;
- 2. casks, barrels, vats, tubs and other coopers' products and parts thereof, of wood;

(b) reservoirs, tanks, vats and similar containers of iron or steel;

(c) interchangeable tools for hand tools, or for machine-tools, and knives and cutting blades for machine or tools;

(d) boilers and machinery and mechanical appliances, and parts and accessories therefor, as set forth in the following:

- 1. steam or other vapour generating boilers and super-heated water boilers and parts therefor;
- 2. parts of producer gas or water gas generators, acetylene gas generators and similar water process gas generators;
- 3. parts of steam turbines;
